

# Western Isles Climate Action Network (WI-CAN)

How can we create a fair, thriving and sustainable future in Na h-Eileanan Siar, the Western Isles?

We're inviting community groups from Vatersay to the Butt of Lewis to take part in developing a new Climate Action Network across the islands

## What is WI-CAN?

WI-CAN is a network of local community groups across the Western Isles. The network will grow over time and aims to support these groups. This support could be in developing ideas, sharing knowledge, opportunities for training and where to access funding.

The network is just starting and we're asking you to be part of shaping it as it grows.

## How it started

The network is supported by SCCAN. You can find out more about them at <https://sccan.scot/>

WI-CAN is funded through the Scottish Government. You can find out more about this on <https://www.gov.scot/policies/climate-change/climate-challenge-fund/>

## Who can join?

We are open to any group and welcome a range of perspectives from different communities across the islands.

You might be working in mental health and wellbeing, supporting community growers or tackling issues with transport. There are many ways that climate change effects our daily lives.

## Climate Action Hub

As part of the network there will be the opportunity to discuss having a Climate Action Hub in the Western Isles. You can get updates on this through the WI-CAN newsletter.

## Newsletter

Sign up at <https://sccan.scot/westernislescan/> to get all the latest WI-CAN news and event invitations including our newsletter or follow **@ScotCCAN #WesternIslesCAN** on your social media channels.

## Contact us

For more information or you'd like to set up a meeting with our **WI-CAN Coordinator** based in Uist contact **alison@sccan.scot**
